## THE VINTAGE TILE SERIES

### *The vintage tile* Floral

Inspired by the majestic Alhambra Palace Gardens in Spain, Flora captures the essence of historical grandeur and poetic elegance. Exotic flowers bloom in harmony with the seasons, while dewdrops and butterflies dance, creating a secluded floral sanctuary—a true tribute to the timeless beauty of the Roman goddess Flora.

## INITIAL SERIES

The **Initial Series** captures the essence of tranquility and poetic warmth, engaging in a silent dialogue with the soul through the soft glow of dawn. Each fleeting moment, infused with the fragrance of time, unfolds like a gentle breeze, evoking a sense of nostalgia and serenity. Inspired by the intersection of Moroccan tiles and Tuscan furniture, this collection preserves timeless beauty, blending elegance with a unique and everlasting charm. Like a distant fairytale, the Initial Series brings memories of home to life—warm, simple, and filled with happiness.

## NOTE

### PRECAUTIONS FOR TILING

#### STEP 1: CLEAN, LEVEL, & KEEP DRY

Clean the tiling area thoroughly, ensuring no dust, cracks, grease, or cement sand residue. Level uneven surfaces with self-leveling mortar or cement.

Ensure a flatness tolerance within 5mm per square meter, and leave a 20mm allowance before tiling.

Keep the tiling area dry and free of debris.

#### STEP 2: DRY LAYING, ALIGNMENT & GROUT SPACING

Maintain a minimum 1mm gap between tiles. Avoid forceful tapping on tiles. (Cement mortar requires natural curing and should not be force-dried).

Follow the recommended laying sequence. If tiles become dirty during installation, clean them immediately with a damp cloth.

Allow the tiles to set for at least 24 hours before grouting. Use protective tape to prevent grout stains on tile surfaces.

#### STEP 3: CLEANING, PROTECTION & INSPECTION

After installation, wipe tiles with a damp cloth and allow natural air drying for 48 hours before deep cleaning.

If cement stains appear, use a specialized tile cleaner for removal.

Before grouting, ensure all joints are clean and free of cement dust or stains.

Avoid abrasive cleaning tools to prevent scratches (use soft cloths or cotton fabrics).

Inspect the tiles within 5 days post-installation and address any stains or defects immediately.
